TANDBERG Resources

FOR EDUCATORS

TOOLS FOR THE SUCCESSFUL DISTANCE LEARNING PROGRAM.

As part of our mission to change the way people communicate, TANDBERG offers educators a number of resources designed specifically to make distance learning programs more successful. Our visual communications products are the best available, but technology alone does not make a difference in the classroom — it's how educators use it and incorporate it that is important.

Listening to our customers, we know that content for the classroom is of utmost importance, but training those who will be using the technology in the classroom is just as necessary. Today's millennial learners need relevant, interactive content from educators who know how to incorporate it into a living curriculum. This is why TANDBERG offers several resources for content access and training — as well as assistance in locating and securing funding.

CONTENT

TANDBERG CONNECTIONS PROGRAM

FREE virtual field trips provide TANDBERG customers the opportunity to bring new educational experiences into the classroom. More engaged students means better learning!

connectionsprogram
monthly virtual field trips

Through the TANDBERG Connections Program, TANDBERG purchases virtual field trips from various content providers and offers them FREE on a first-come, first-served basis exclusively to TANDBERG customers.

TANDBERG CONTENT PORTAL

This is a search portal to hundreds of standards-based lessons and virtual field trips delivered over video from recognized national and international content providers. Use this portal to search by keyword, category and cost to find a program to fit your curriculum. Once you find what you need, you can request the connection, schedule and evaluate the lesson from one convenient location!

TANDBERG AND CILC COLLABORATION CENTER

Are you interested in using video to connect your students with other students for a collaborative learning project? The Collaboration Center lets you review collaboration requests from other educators or post a request of your own. Educators all over the world are looking for students and groups to collaborate on all types of subjects.

TRAINING AND PROFESSIONAL DEVELOPMENT

TANDBERG TEACHERS TRAINING TEACHERS (T⁴)

The TANDBERG Teachers Training Teachers Program (T⁴) is a professional development program specifically designed for educators. T⁴ goes beyond traditional training in videoconferencing equipment by providing 10 hours of training, delivered over 4 sessions. Ongoing training is crucial to spur teacher adoption of the technology. The program is hands-on and empowers educators to develop distance-learning programs and classroom applications with tips for planning content and delivery. The program is cost effective and maximizes adoption.

TANDBERG UNIVERSITY

TANDBERG University offers videoconferencing training courses that have been specifically designed to empower customers with technical information and practical skills to use and support TANDBERG visual communication solutions. Participants come from all over the Americas to attend our training courses, giving them a unique opportunity to share ideas and best practices.

GRANT SERVICES

Each year, the U.S. Federal government awards millions of dollars in grant funding to schools, first responders, healthcare organizations and other public entities for the purchase of new technologies, such as visual communication solutions.

From consultations on available funding sources to grant application assistance, TANDBERG's highly qualified Grant Services team has extensive experience helping schools secure funding for visual communication solutions that support distance learning. Our Grant Services team even provides post-funding consultation to ensure successful implementation and usage!

"TANDBERG helped us to make sure our grant process was a success — and it has been more than we ever expected!" Mike Lay — Scott County Schools, TN.

ABOUT E-RATE

Today, America's K-12 entities are constantly plagued with diminishing resources and shrinking budgets. Schools are challenged with obtaining the necessary technology to keep up with rising standards of child education and development. Through the E-rate Program, the Schools & Libraries Division (SLD) of the Universal Service Administration Company (USAC) provides schools and libraries with discounts for advanced telecommunications technology and Internet access.

ABOUT RURAL UTILITIES SERVICES (RUS)

Advanced telecommunications services have become vital to the economic development, education and healthcare of rural Americans. The Rural Utilities Service's (RUS) Distance Learning and Telemedicine (DLT) Program is specifically designed to meet the educational and healthcare needs of rural America through the use of advanced telecommunications technologies.

GRANTS FOR DISTANCE EDUCATION:

- E-rate
- RUS-DLT
- Foundation Grants (of all varieties)
- Improving Literacy through School Libraries
- E2T2
- Safe Schools/ Healthy Students
- Star Schools
- 21st Century Community Learning Centers
- Teaching American History
- Dept. of Commerce Non-Broadcast

TANDBERG offers end-to-end visual communication solutions that are tailored to the specific needs of each customer. Through our management tools, video systems, infrastructure and services, we provide the best possible video experience.

Our technology creates a natural communication experience through a total solution that grows with you. Scalable from two systems to district-wide deployment, our solutions are standards-based for integration. We are committed to utility-like reliability and investment protection.
